Client

David Lloyd Racquet and Fitness Club

Contractor:

Roofmaster (Bedfordshire)

Materials & Inspection:

Giromax Technology Ltd.

Project Size:

1,850 linear metres

Products Used:

(click for further information)

SEAMSIL® for cut edge corrosion

DELCOTE® for roof recoating

Specification:

When faced with the problem of rust-affected peeling edges on the roof sheets of their fitness complex in Cardiff, David Lloyd turned to Seamsil®. Contractors Roofmaster of Bedford correctly diagnosed the underlying cause - classic sheet edge corrosion, which, once established, can wreak havoc with even the best of buildings - and then treated it with Seamsil® which has been used successfully for just such problems for over 15 years. Once again it proved to be the ideal solution to get this building's roofing back into shape.
