SEAMSIL® for cut edge corrosion

DELCOTE® for roof recoating

Specification:

Seamsil 100 treatment applied to lap joints and sheet ends. Confronted with corrosion problems on the profiled metal roofing at their South Wales storage depot, World famous production company Royal Opera House were faced with the dilemma of renewing the roof or finding an economical and reliable repair system. Whilst the roof sheets themselves were in good condition, the cut edges had been affected by peel back and lap joint corrosion. The answer to the problem appeared through the choice of Seamsil®, the patented silicone repair system.
