

PROJECT : Amazon Distribution Centre - Bristol

Client

AMAZON
Distribution Centre

Contractor:

High Access Maintenance Ltd

Materials & Inspection:

Approved Delvemade Distributor

Project Size:

209,000 sq ft

Products Used:

SEAMSIL® 100

SEAMSIL® 300

DELCOTE HPG

Specification:

Approved contractor High Access Maintenance Ltd undertook the project also using DELCOTE HPG, another product manufactured by Delvemade, specifically for the refurbishment of galvanised steel, aluminium plus concrete and asbestos cement gutters. Used in conjunction with SEAMSIL 300 for defective joints, the coating system provides a seamless solution to long-term weatherproofing of gutter surfaces.
